The Daily Courant.

Tuesday, August 10. 1714.

The humble Address of the High Sheriff, Grand-Jury, and other Gentlemen, met at the Assizes held for the County of Devon, July 26, 1714.

WE your Majesty's most dutiful and loyal Subjects, out of a grateful Sence of your Majesty's Goodness, do return our most humble Thanks for the Proclamation you were pleased to issue forth for the Apprehending the Pretender, in Case he should land, or attempt to land either in Great-Britain or Scotland, or any other of your Majesty's Dominions.

As your Majesty has judged this Proclamation Seasonable and Necessary, and thereby shewed that the Fears of your People are not now Groundless, we resolve to make the best use we can of the Precaution you have given us, by uniting firmly for the Defence of your Majesty's Person and Government: And for that End, we will lay aside all private Differences, and make no other Distinction among our selves, than of those who are for the present Establishment in Church and State, and those who are for the Popish Religion and Arbitrary Power.

And since such an Attempt, if Successful, must inevitably destroy the Church of England as by Law Established, together with the Laws and Liberties of the Kingdom, the securing whereof has been the great End and chiefest Care of your Majesty's most Gracious Administration: We humbly beg Leave to assure your Majesty, that we will do our utmost, if Occasion be, to put this your Royal Command in Execution, and venture all that is dear to us for the Preservation of your Majesty's most sacred Person, and of the Protestant Succession in the most Illustrious House of Hanover.

Several Merchant-Ships are hired here to transport about 1000 of the English Soldiers for the 'River of Thames, or to such Port in England as they can best make.

Hague, Aug. 14. 'The Senate of Sweden have 'caused an Answer to be returned in Writing to 'the Representations of the Minister of this State, 'which Answer, as we are informed, contains frivolous Excuses for the Pyracies committed by 'the Swedes in the Baltick. 'Tis therein alledged, among other things, that the Senate knew nothing of the taking and carrying into Stralsond 'of several Ships laden with Corn, but that if it 'shall appear that those who were concerned in 'making those Ships Prizes, have therein acted 'contrary to the King's Orders, and that there 'was no Necessity for having Recourse to such extraordinary Methods for re-victualling that Place, 'then in that Case the Princess Ulrica and the Senate promise to pay for the Cargoes and to restore those Ships. As to the confiscating of 'Ships trading with the Places conquered by the Czar, they pretend to excuse it by quoting the 'Treaty made between Sweden and this State, 'which imports, that they shall mutually cultivate 'a perfect and sincere Friendship, that the one 'Nation shall procure for the other all manner of 'Good, and avert from the other all the Evil that 'shall threaten it. Now, say they, as the Commerce 'of the Dutch with the Muscovites, promotes the 'Evil with which the Swedes are threatned, far 'from averting it, the Senate have thereby a 'Right to confiscate all the Ships that can be taken.

'The Emperour's Minister, Baron Heems, has insisted anew with the States to chuse immediately a Place for treating with the Emperour 'about the Barrier, declaring that if that Treaty 'be not made before the Ratification of that of 'Baden, his Imperial Majesty will cause Possession 'to be taken of the Spanish Netherlands, by his 'Troops which are in Bavaria and in the Archbishoprick of Cologne, as fast as he puts those

'Electors

Elector into Poſſeſſion of their Dominions. The States have anſwered Baron Heems, that they are intirely diſpoſed to agree with his Imperial Majeſty on the Barrier, and that they will ſpeedily nominate a Place for the Negociation. 'Tis now believed, that Antwerp or Cologne will be pitched upon for it, and that M. van der Duſſen and M. Geldermalſen will be ſent thither on the Part of the States. Aſſoon as the Earl of Strafford had Notice of this Diſpoſition of their High Mightyneſſes, he demanded that they would not proceed to name a Place for treating before he had written to the Queen and received her Pleaſure therein; urging, that it was not fit and right to do it without her Participation and Conſent, conſidering her Majeſty has had hitherto the Condirection of the Government of the Spaniſh Netherlands.

'Yeſterday an Expreſs from England brought an Account that the Queen was fallen into an Apoplexy, and that all the Phyſicians deſpaired of Her Majeſty's Recovery: Whereupon the ſeveral Miniſters of the Potentates who are moſt intereſted in this Piece of News, have diſpatched Expreſſes to their Principals.

'P. S. Juſt now, at 4 this Afternoon, we received the News of the Death of the Queen of Great Britain, and of the Proclamation of the Elector of Brunſwick for King. All the foreign Miniſters here, are buſied in ſending Expreſſes, with this important News to their reſpective Courts: The Expreſs from England to the new King, is already gone on for Hanover: Baron Heems is ſending two Expreſſes, one to Vienna, the other to Baden. The Joy for the Elector of Brunſwick's being proclaimed King, is univerſal here.

London, Aug. 10.

Late laſt Night arrived the Mail from Holland of Friday laſt: The Prints which came by it relate, that M. Craggs called upon the grand Penſionary Heinſius at the Hague the 13th, in his Way to Hanover. That Baron Bothmar's Secretary arrived at the Hague the 14th in the Afternoon, with the News of the proclaiming of King George. That the ſame Evening the Earl of Strafford returned from Utrecht to the Hague, and the next Day was in Conference with the States-General, upon certain Orders which he had received by an Expreſs from England. The Earl of Dorſet arrived at the Hague the 15th at Night, and thence proceeded for Hanover. The States-General have written to his Britannick Majeſty a Letter of Congratulation on his Acceſſion to the Crown.

Hague, Aug. 17. 'This Morning arrived the Mail from England of Tueſday laſt. All the People of this Country, from the higheſt to the loweſt, are filled with Joy for the Proclaiming of King George. M. de Borſele (newly arrived from England) is ordered to go back immediately to reſide in his former Caracter there, on this important Conjuncture. The States have paſſed a Reſolution to aſſiſt the new King of Great-Britain with all their Power. They have ſent to deſire his Maj-ſty to take his Paſſage through their Territories, and their Deputies are to go to meet and receive him on their Frontiers. 'A Petition (as 'tis called) of the Council of State, for the neceſſary Charges on this great Occaſion, is already drawn up and ſent to the ſeveral Provinces. We are informed, that the Lords Regents of England having found by a Letter from the Earl of Strafford to the Lord Viſcount Bolinbroke, that he (the Earl) deſired more ample Inſtructions for concluding a Treaty of Alliance which he was negociating between England France Spain and the Duke of Savoy, for the better ſecuring Sicily to that Duke, their Excellencies have ordered him to apply himſelf on that Subject to the King, and to take his Majeſty's own Directions in it.
